

toxotis[®]
charitable foundation

**our new home
support us to build it**

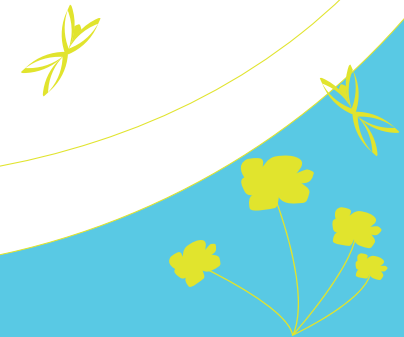

Who we are and what we do?

Toxotis is a non-profit foundation whose main end is the development and enhancement of the capabilities of persons with mental disabilities. We achieve this by organized activities and events at their free time.

Today we operate from rented premises which are not adequate. For this reason we purchased a plot of land in Lakatamia and intent to build a Day Centre and a Residential Centre. Dias Architects LLC have prepared the architectural plans.

Details on the pages that follow.

Our Vision

All members of Toxotis to surpass their current limits, reach their full personal potential, and dispel the stereotypical image of people with mental disabilities.

Our Goals

- **Independence and inclusion of people with mental disabilities to the community. We encourage social interaction with society members, other than just the family members.**
- **Empower individuals with mental disabilities to adopt a healthier lifestyle and participate in their community as active members.**
- **Increase awareness in the community of people with mental disabilities.**
- **Provide equal opportunities for independence, socialization and expression.**
- **Provide support to the families of individuals with mental disabilities.**

Reorganised Charity

Toxotis is recognized by the Ministry of Finance and all the amount of a donation is deductible from the taxable income of the donor.

Proposed Project

A. Day Centre

There will be areas of activity, entertainment, exercise, sensory room, gardening and table setting and storage area at the basement.

Today Toxotis has 20 – 25 members and operates from 14:30 to 19:00 hours.

The new Centre will operate all day and will be able to support up to 50 members.

C. Timeframe

The plot of land has been purchased.

The plans have already been submitted for the relevant building permits. We hope to start construction before the end of 2021.

The construction cost of the Day Centre is estimated at €1.200.000. The cost of furniture and equipment at €100.000.

The period of construction of the Day Centre is estimated at 18 months and will be fully operational in 20 months. It will be ready by the middle of 2023.

B. Residential Centre

On the first floor there will be single and double rooms, rooms for the personnel, kitchen, dining room, outside veranda. Storage area, laundry etc at the basement. At the ground floor, reception area, sitting room and gardens.

There is also provision for a second floor.
